☐ Please check if any of the above information has changed since previous year.

II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐

2. If active, how much ore or mineral was mined? 7 Tons

3. How much new or additional acreage was affected during past year? none

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

The ore removed has been taken from a large
black muscovite shale stuff with no vegetation on it
Natural stuff quickly covers where the ore was taken
from so that in 6 mo. you can hardly find where
the ore was taken from. It was taken from
4 different places on Rabbit #19 and samples from
other adjoining claims

5. How much acreage was reclaimed during past year? none see #4

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

See #4

7. What is the total disturbed acreage at years end? 2000 sq. ft.
8. Briefly summarize mining and reclamation planned for the upcoming year.
The ore is being hauled as before to various
labs. for study.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. ADDITIONAL INFORMATION

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. SIGNATURE REQUIREMENT

I hereby certify that the foregoing is true and correct.
